An aspiring software developer and full-stack developer with a strong passion for creating efficient, user-friendly applications. Currently pursuing a B.Tech degree, I am eager to apply my technical knowledge and problem-solving skills to real-world challenges. Seeking opportunities to innovative grow and contribute to projects in the tech industry

SKILLS

Language : C++ , JavaScript , Python ,SQL, HTM L, CSS , Data Structures & Alogorithm
FrameWORK : React.js , MongoDB , Express.js , Node.js , Material UI , Bootstrap lib
Tools : GitHub , PostMan , Linux
Soft Skills : Problem-solving , Documentation , Leadership & Teamwork

EDUCATION

Qualification	Board	School/College	Year	Marks
10th	CHSE	Panchayat High School , Bilikana	2020	82%
12 th	CHSE	Higher Secondary School, Kendrapara	2022	75%
Graduation	Electronics & Telecommunication	Veer Surendra Sai University Of Technology Sambalpur,Odisha	Expected 2026	Currently 7.58 CGPA

PROJECTS

BLOOD_BANK_PROJECT :

- Developed a platform to facilitate blood donation by managing donor registration, blood availability, and recipient requests.
- Implemented secure user authentication using JWT for donors, recipients, and administrators.
- Integrated MongoDB for efficient data storage and retrieval of donor and recipient details
- Streamlined data input and management using a responsive UI built with React.js.

IMAGE GENERATER :

- Developed a dynamic image search and generation application using JavaScript.
- Implemented real-time search functionality with an interactive UI for seamless user experience.
- Optimized API requests to ensure efficient and fast image retrieval.

CERTIFICATION

Participate Amazon Web Services Workshop

2023-2024
